## LET US CREATE EXACLTY WHAT YOU NEED

Based on your proposal development processes and requirements, we can implement functionality that may include, but is not limited to, any of the following:

- Bid-specific workspaces
- Centralized tools & templatesAt-a-glance status tracking
- Executive views / reporting
- Reusable content repositories
- Resumes & experience curation
- IDIQ and TO management
- Legacy proposal storage
- FOIA materials management

"We're excited about the portal solution because it transformed a mission-critical aspect of our business that used to be full of frustration into one that works—and works well... The savings we're receiving already are dramatically higher than the investment made in the portal solution. We met our ROI point in less than six months."

-Chief Information Officer
